# *Root Island*

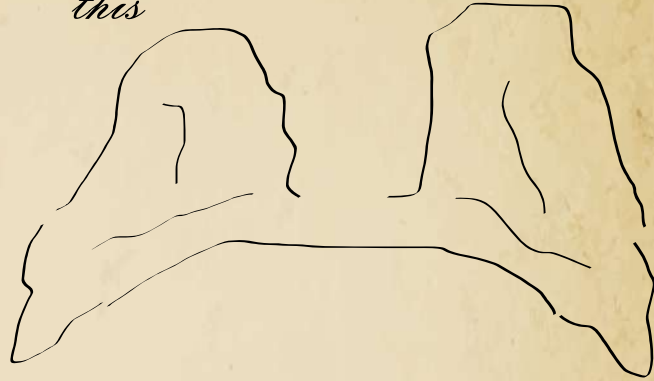

*Bring all the coins here and have your reward!*

# Camino Island

*First, I arrived at a bay,  
that looks somethink like  
this*

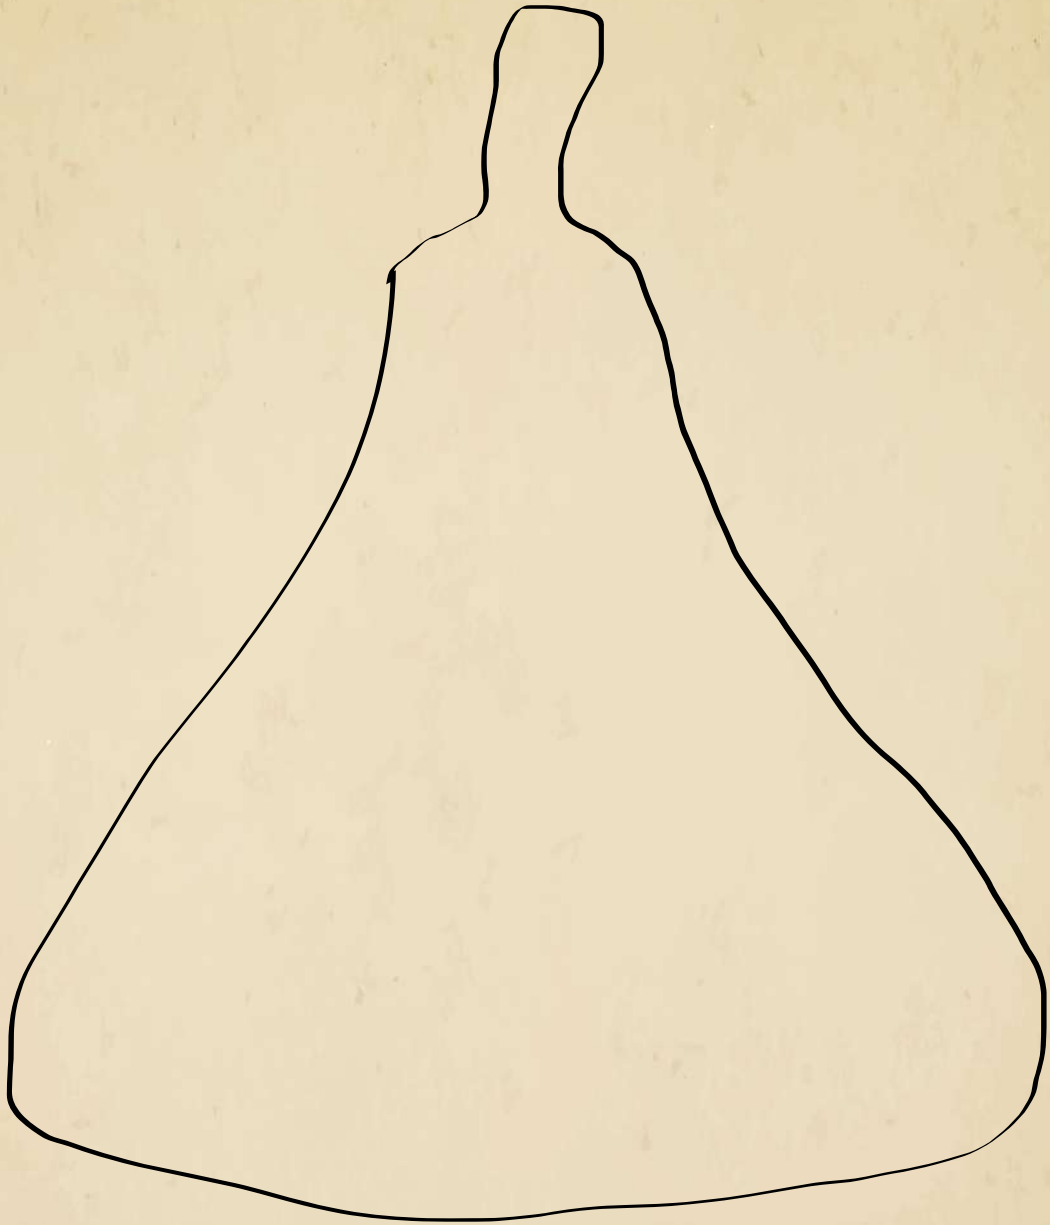

*I followed straight untill the  
forest. In the forest I made  
some markings for the path I  
did.*

*I followed streight untill a rock. Then I turned right  
in the direction of the river.*

*By the river I found some berries, so I ate and drink  
some water. I followed the river downstream and  
turned left on the 6th tree. Then I placed the coin a  
little bit after that*

# 20-face Island

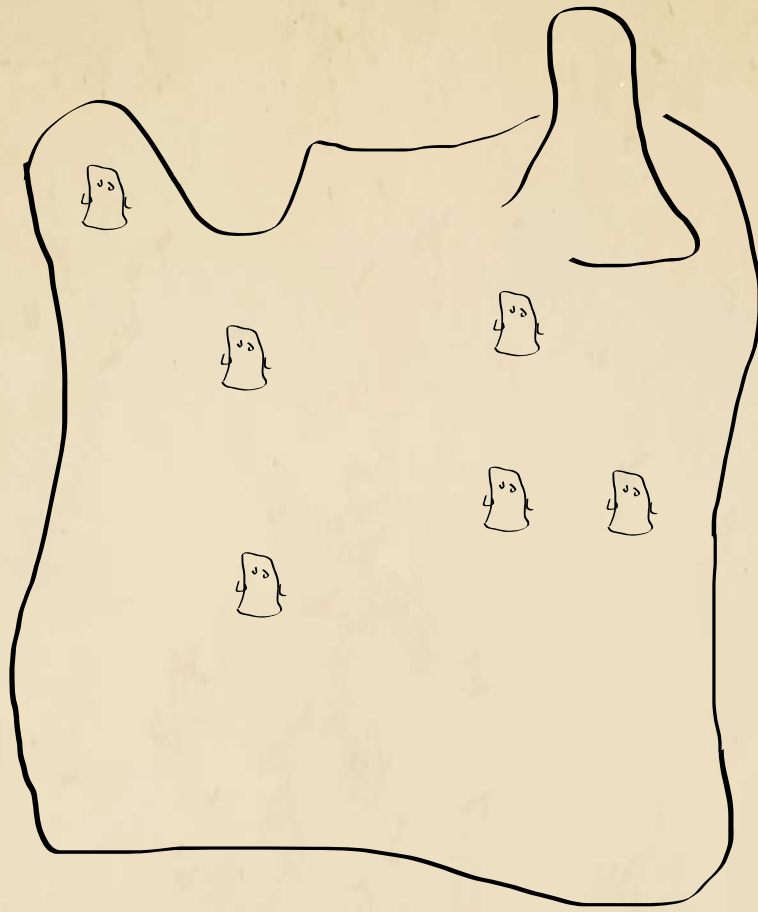

*From the islands I been to, the 20-face island is by far the most interesting one.*

*There it's always darkness and the island is quite sentimental: the lighthouse is only lit when everyone is happy*

# Stone-heads Island

*There are some friendly fellows here. It looks like somebody abandonned them. Each one of then has a name. If you call them in the right order, they will award you.*
